

Jukka Korpihete

Lootus

Ceiling lights

RRP 542,00 €

'With the Lootus series, I wanted to explore and utilise the light-diffusing properties of acrylic. The multi-layer lampshade diffuses the light softly and effectively. The shape of the lamp was designed to emphasise the softly glowing, gentle light characteristic of this lamp. My aim was to design a series of products that would be suitable for both homes and public spaces.' – Jukka Korpihete
