Lisabell FROST

Ceiling lights

RRP 94,00 €

The sweet Lisabell pendant from 2010 got two new versions 2016 in mate frosted surface in the colors Moonlight White frost and Midnight Black frost. The mate surface looks like ceramics and together with the fabric white cord this pendant has a modern touch and can be used as single or as very decorative settings in groups of mixed colors or in one color. The big light bulb is a part of the product design and the conclusion for this simple lamp is that the simple is always good. Its diameter is 185 mm and height 175 mm that makes this lamp to a small sized pendant but because of the several color variants it's very useful in interior design projects.

Color options
