

Kristiina Lassus

LasKos

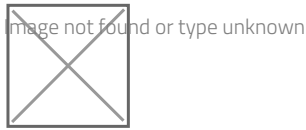

I have always been fascinated by asymmetry and balance, harmony and versatility. When I design new products, I always carefully consider the ambience and the mood, and how the products work in combination with other pieces.' – Kristiina Lassus

LasKos is available in three colors, and each one has a specific color selected for the fabric cord.

LasKos has been selected to several international interior projects.

The Chicago Athenaeum Museum of Architecture and Design gave the LasKos-lamp the prestigious GOOD DESIGN-Award in 2014.
